Hi Mukta,

I have not posted the latest GWM Report as it has not yet been approved by EPA; however, attached is the most recent GWM Report submitted to EPA this 30 April 2021. Note, the document category Bioremediation Treatability Study has 8 documents through 2020:

<https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.docdata&id=0901552>. Attached is also the Signetics vapor intrusion work plan. I'll also upload more recent ASAO required progress reports; however, due to limited resources I'll not be able to get to this until next week.

I'll get back to you later in the week regarding interim bioremediation data results.

Thank you,
Michael

Hi Michael,

Hope you're doing well. In preparation for our upcoming meeting this Thursday, I wanted to review the latest groundwater monitoring reports and bioremediation progress reports (if any submitted). EPA's online repository doesn't

show any documents beyond 2019. Would you please be able to share the documents with me? If they are on the web somewhere and I wasn't able to find, I apologize in advance.

Thank you!
Mukta
